

A FAMILY OF *Faith*

Faith Formation - Part of the Fabric of Family Life!

Another Religious Education Option at Holy Trinity....

Family Faith Formation is designed to help **YOU**, the parents, respond to the Church's call to be "the first and foremost educators of your children" and to help your family grow in the transforming love of God by understanding and living the Catholic Faith. Your children won't simply learn the faith, they'll live it in the home as we help you learn how to build your Domestic Church. The goal is to empower YOU to bring faith into the heart of your home — and to ensure that this faith will be an integral part of your children's lives going forward.

- Completely turn-key for parents, with easy-to-understand content and step-by-step instructions for each activity, helping you to gain knowledge of the Faith and confidence as you teach it.
- Monthly parents-only meeting to help you build your lesson plans, answer questions, and provide fellowship.
- Offers the gift of community, showing our children that we don't just go to church, but that we are connected to a larger community of Catholic Christians.
- Parents learn along with the children. We walk with you every step of the way – you are not alone!

"The lessons are wonderfully planned and the activities are concrete ways for the kids to internalize what they have learned. The activities are diverse so there is something for all kinds of learning styles. Although I was intimidated at first, once I got into it, I realized that the curriculum is very easy to follow."

"It's nice being able to be around other families with similar-aged children, to share conversations with and really engage with them about the faith. We get a lot out of the family activities, the parents' guide, and the kids love the children's activities."

"I have been astounded by how little I really knew and how many misconceptions I harbored. This has helped me to repeatedly fall in love with my faith and has strengthened my resolve to live that faith out and pass it on to my children."
